

Shahar Maoz EdTech Developer & Musician

Building Games, Tools & Experiences that Teach, Empower & Inspire

 rakloze@gmail.com |  +972-52-534-7274 |  [Portfolio](#) | [GitHub](#) | [LinkedIn](#)

Professional Summary

Multidisciplinary educator, musician, and creative full stack developer with over 15 years of experience creating transformative learning environments and 3+ years of professional experience building educational web applications, interactive installations, and accessibility tools. Combines deep understanding of music, education, and human behavior with advanced technical skills to deliver products that engage, teach, and inspire. Proven ability to lead full product cycles — from ideation to deployment.

Core Skills & Technologies

Languages & Frameworks: React, TypeScript, Node.js, Python, Firebase, SQL, MongoDB

Creative Tech & Tools: WebGL, Three.js, Tone.js, MediaPipe, Web Audio API, Puppeteer

DevOps & Infra: Docker, AWS, Git, CI/CD pipelines

Professional Strengths: Creative problem-solving, Inclusive education, UX thinking, Fast learning, Event production, Artistic direction

Professional Experience

Freelance | Full Stack Developer & Creative Technologist

2022 – Present

- Developed custom EdTech and accessibility tools using WebGL, MediaPipe, and advanced audio/visual APIs
- Built full-stack portfolio and commerce websites for creatives, including UX, design, and deployment
- Delivered automation solutions for musicians and content creators using Node.js and Puppeteer
- Designed browser-based learning games with realistic physics and engaging user interaction

Music Educator, Artistic Director & Tech Integrator

2007 – 2022 | Various Institutions, Israel

- Designed and led innovative educational programs combining music, UX, and digital tools
 - Conducted inclusive music sessions with disabled and autistic children in therapeutic settings
 - Produced large-scale artistic events involving cross-functional coordination and UX flow design
 - Delivered music instruction and managed long-term client relationships as a private instructor
-

Selected Projects

HandSynth

Interactive instrument translating hand gestures into audio and visuals using MediaPipe, Tone.js & Three.js. Real-time gesture recognition and dual-hand melodic/harmonic response.

 [Live Demo](#)

Sfez Nadlan System

Full real-estate client and asset management system with CMS, internal messaging, and public-facing website. Built with modern full-stack technologies.

 [Live Site](#)

Master-Stack.com

Personal portfolio site showcasing services, blogs, and completed projects. Designed, developed, and deployed independently.
